

Car Traffic Injury Rate Remains At High Level

Tree, Train, Bridge
Involved In Crashes;
8 Hurt, 17 Accidents

The traffic accident injury rate in the Quad-Cities remains at a comparatively high level during the weekend, eight persons being hurt, but the number of collisions declined slightly to a total of 17.

Three bridge crashes occurred, and other injury cases involved a tree and a train engine. Collisions with a moving car and a parked auto also were responsible for weekend injuries.

Four persons were injured over the weekend in three accidents on McKinley Bridge.

Richard Backwell, 30, of 2667 Washington avenue, was admitted to St. Elizabeth Hospital, and Joseph Whitehead, 47, of St. Louis, was given emergency treatment after their autos were involved in a head-on collision about 4:50 p. m. Friday on the east end of the bridge, Venice police said. Whitehead's auto turned into the wrong lane. He was charged with careless driving.

Backwell suffered shock and a cut over his left eye. Whitehead was treated for a deep cut to his upper lip requiring 15 stitches to close.

Auto Demolished

Another St. Louisian, Junior Thompson, 30, suffered injuries to his neck and right shoulder about 7:30 a. m. Sunday when his auto was damaged in a collision on the east side of the bridge with an auto driven by Thomas G. Scott, 20, also of St. Louis. Scott was charged with careless driving by Venice police and released on bond.

Earlier Sunday morning at 1:25 a. m., Jackie Vaughn, 29, of East St. Louis, suffered serious injuries to his face when his auto crashed into an abutment on the west side of the bridge, Venice police said. He was taken to St. Elizabeth Hospital for emergency care and transferred to a St. Louis hospital.

Auto Hits Tree, Driver Hurt

Gerald Grider, 23, of 2104 Manley avenue, was admitted to St. Elizabeth Hospital about 6 a. m. Sunday to be treated for facial injuries and a cut to his forehead, suffered when his auto crashed into a tree at August street and Hodges avenue.

Police said Grider was traveling north on August street when his auto rammed into the tree. He was able to get home and was taken to the hospital by his father.

Car Engine Collide

A motorist involved in a collision with a switch engine at 26th street and Missouri avenue was injured about 11:40 p. m. Friday. Al Grey, 37, of 2233 Missouri avenue, was admitted to St. Elizabeth Hospital to be treated for facial cuts, contusions to his forehead and chest injuries.

STOLEN AUTO submerged in the Chain of Rocks canal about 2 1/2 miles north of the canal locks has been inspected by Assistant Police Chief Floyd Jeff of Granite City before being pulled out of the icy water. The car was found yesterday after being stolen Saturday night in Granite City.

Auto Stolen In GC Found In Canal Sunday Morning

Thieves who stole the 1955 auto of Larry Hall, 3125 Willow avenue, from 15 Front of his home Saturday night, ditched it in the Chain of Rocks canal. It was discovered shortly before noon Sunday by a canal locks employee who notified Granite City police.

The car, a black two-door hardtop, was found about 2 1/2 miles north of the locks. The rear corner of the roof protruded above the ice and water about two feet as the car was about 10 feet offshore from the ice level.

The tracks through the grass indicated the car was headed down from the road stop the levee straight into the canal.

As it was pulled out, about 3 p. m., after difficulty was encountered in reaching it through the ice, a call went in for Deputy Coroner Henry Pieper.

However, upon closer examination, it was discovered a pair of gloves and a cushion were floating in the canal.

Hall said the theft occurred between 6 p. m. Saturday and 2 a. m. Sunday.

Break-In Attempt

An attempted break-in at Ed Ray Foods, Inc., 16th and State streets, was reported to Granite City police on Friday by the proprietor Edward Dubish.

A lock on an office window was forced, but entrance apparently was not gained. Dubish said the attempt was made between 6 p. m. Thursday and 8 a. m. Friday.

Gasoline thieves siphoned the tank on her auto several times last week, according to Sarah Salo, 206 East 20th street, who made a report to Granite City police on Thursday. The theft occurred, she said, when the car was parked at the rear of her home.

Thompson told police he was driving north on Namoiki road and as he turned right onto the parking lot, his brakes failed, sending his car to crash through the window.

Firemen fought the fire, and a home at 519 Jefferson avenue, where a quarter-horsepower motor caught fire and was damaged in the basement; at 1:13 p. m. GC Police Nab Two Holdup Suspects

Arrest At Local Tavern
3 Hours After Stickup
In East St. Louis

Granite City police were credited Friday afternoon with quick arrest of two armed bandits suspected for East St. Louis, less than three hours after a \$300 stickup was staged at a market in that city.

The suspects, who were taken into custody while seated at a table in the 20th & Park tavern, East 20th street and Park avenue, have been identified by the victim, Mr. and Mrs. Stanley Niedzwiecki, operators of Stanley's Market, but both men have denied taking part in the holdup.

Chief of Detectives James R. Lowder said local charges of carrying concealed weapons would be played against Earl Little, 24, and Mike Hamilton, 21, both of East St. Louis, if they are freed by East St. Louis authorities.

Both Armed When Arrested

Both men had guns in their possession when arrested in the tavern, Chief Lowder said. One was carrying a nickel plated .22 caliber, double-barrel derringer containing "dum-dum" bullets; while the other had a weapon designed for firing blank shells. They offered no resistance.

Local police were advised of the stickup at 2:40 p. m. Friday and were given a license number of the getaway car. The number was traced to a Granite City resident, but proved to be erroneous, since the plate was on a different type car and the owner had just arrived home from work at local industry.

However, at 4 p. m., John Stanhouse, 1831 Rhodes street, Granite City, police said, after he left work at Granite City Steel Co. he found his 1953 Chevrolet in the same place he had left it on a parking lot, but facing in the opposite direction. The lot is about two blocks from the tavern.

License Numbers Reversed

Stanhouse's license contained the same numerals as given for the getaway car, but two numbers were reversed. His answers described the car used by the bandits.

With the new information, Granite City officers learned where two men were still hiding. They entered the tavern and made the arrests. The men said they were waiting at the tavern for a ride to East St. Louis. Also in their possession was approximately \$25.

The holdup victims said two men entered the store and announced a stickup. One pointed a gun at Mrs. Niedzwiecki, while the other forced her husband and a customer to the rear of the building. The money was taken from the cash register by the gunmen, Mrs. Niedzwiecki said.

East St. Louis police said today the two men are still in custody on the armed robbery charge, and their bonds have been set at \$10,000.

Undergo Surgery

The following are recovering at St. Elizabeth Hospital from surgery they underwent since Thursday: Mark James, 3228 Rodger avenue, Mrs. Zeph Schrage, 2718 Namoiki road; Nancy Graham, 2508 Popes road; Karen Goetting, 2820 Edwards street; Mike Naglich, 2337 East 27th street.

Granite City police were notified by the mother of one of the boys and picked up the shell, turning it over to the U.S. Army bomb disposal squad of the Granite City Engineer Depot.

An officer of the unit said a number of the shells had been used in the recent months, and that most of them were deactivated when found. The waxy souvenirs are extremely dangerous when loaded, he remarked.

Thursday, Jan. 24, 1935 Carrying its avowed approval of the short ballot form a step further, the city council Monday night created a special committee of Mayor A. M. Jennings, four aldermen and City Clerk Edwin Riggs, whose duty will be to contact candidates in the forthcoming city election, to inform them of the general preference for this much more economical and simple ballot.

A large part of this task will fall to Clerk Riggs, who will furnish blanks to aspirants and accept them when filed. Other members of the special committee are Aldermen Charles Kramer, Charles Weber, John Ryckman and John Summers.

In a prepared statement to the city council Monday night, Mayor A. M. Jennings called attention to the forthcoming election, the dollar federal expenditure to put men back to work and urged that this city be prudent in its selection of its full share of the money, at least. He listed possible local projects of a public nature that might be financed by the federal government, stressing that greater part of the cost of these would be labor.

Preliminary Work Underway On New GC School Budget

Granite City school administrators and principals currently are preparing budget reports which will be used in development of the overall 1960-61 budget for the community unit school district, Supt. Harold M. Reimer reported.

Principals' reports are to be completed by March 7, with reports from administrative assistants of their respective areas of the budget due by April 8. Included will be requests for personnel, maintenance items, instructional supplies, textbooks and such capital outlay recommendations as new equipment, repairs and replacement of equipment.

Estimates of all income and expenditures for the school year beginning July 1, 1960, are to be completed by May 2. The budget is to be ready for study by the school board at its July 26 meeting. Budget development is planned for the Aug. 23 board meeting.

Teachers To Participate

Teachers will participate in identifying the needs of the school district, Dr. Kaiser has explained. Principals will work with their teachers in outlining needs of their school in new and replacement equipment, instructional materials, maintenance to buildings and grounds and other items.

Budget development in the main office will include conversation of the information into specific recommendations in each field. For example, the director of special education will make recommendations for personnel, equipment and supplies for special education and health services, while the school engineer will recommend maintenance and repair of buildings, custodial services and supplies. The assistant superintendent in charge of instruction will be responsible for school equipment, textbooks, instructional materials, supplies and other materials.

Recommendations for additional personnel or other personnel needs will be identified through principals' conferences with the superintendent and his staff. A schedule calls for separate meetings with each principal between March 21 and 28.

Enrollment, Staff Changes
The plans for organization of both elementary and secondary schools for the new year will include enrollment estimates, any rentals needed to take care of increased enrollment and such staff changes as resignations, retirements, transfers, deletions and additions.

Five teachers and a secretary have been hired for the new semester. The secretary, Mrs. Frelia M. Andrews, 3306 Washburn avenue, will work in the district's business and finance office.

These added to the faculty are Mrs. Carol McRaven, Caseyville, Northern Illinois University bachelor degree and three years' experience, East 23rd street elementary teacher; Gary Pfrendler, 2434 Cleveland blvd., Central College bachelor degree and one year, East 23rd physical education; Mrs. Rosemary McCowley, 3249 Carlson avenue, Bradley U. master degree and seven years, Central junior high guidance counselor; Miss Beverly Jones, 2449 Cleveland blvd., William Jewell bachelor degree, Maryville road grade school; and Mrs. Frances Pearce, St. Louis, Normal U. bachelor degree and nine years, Frohbit kindergarten.

Resignations have been accepted from Mrs. Mary Callahan, Frohardt kindergarten; Mrs. Gladys Pope, Maryville first grade, and Mrs. Carol Ann Seeford, Stallings first grade. All of their husbands are being transferred out-of-town.

Delinquent Tax Redemptions Total \$30,367 In 20 Days

Delinquent tax redemptions totaling \$30,367 have been made into the office of Miss Eulalia Hotz from Jan. 1 to 20 inclusive. It was reported over the weekend.

Miss Hotz reports that \$16,014 of the amount redeemed covered 46 pieces of property which were sold at the county treasurer's tax sale in January 1958 and on which the tax buyers have filed petitions with the county court requesting tax deeds issued. If the rightful owners do not redeem taxes by February 1, the county clerk's office within two years after a tax sale, the tax buyer may secure a tax deed through the county court.

Thirty-seven persons have redeemed their taxes in the first 20 days of this year, on the January 1959 tax sale. That amount totaled \$10,241.

In the recent tax sales held by the county treasurer on Jan. 11 and 18, a total of 1281 pieces of property were sold for taxes on the regular sale and 61 pieces under the Scavenger Act. Already 48 pieces have been redeemed from the regular sale totaling \$4011. The law provides that the tax buyer is entitled to 12% interest each six months after the tax sale for a period of two years.

Any property with delinquent taxes, that was offered at recent tax sale but not bought in by tax buyers, is automatically "forfeited to state" and may be redeemed at the county clerk's office. The total redemptions on forfeitures amounted to \$1241 since Jan. 11. The amount of 12% penalty is added to all forfeited taxes. If forfeitures are not redeemed, the amount due appears as a "back tax" item on the next year's tax statement.

It is suggested by M. M. Hotz that any property owner, who is in doubt whether or not his taxes have been paid in full, contact the county clerk's office.

3 Trucks In Crash At Highway Junction

Three trucks were damaged Thursday at the junction of highways U.S. 67a and U.S. By-pass 40-66, where a large tractor-trailer truck, operated by Henry M. Belk, 36, of Valley Park, Mo., turned over on two trucks waiting for a traffic signal. No injuries were listed by state troopers.

They said Belk was traveling south on 67a and that his trailer turned over as he was making a right turn. It fell on a tractor-trailer truck operated by Bobbie Kilpatrick, 26, of Ava, Ill., and a pickup truck driven by Lewis Johnson, 20, of Harvel, Ill., who were headed east on U.S. 66-40 and were stopped for a traffic signal.

Troopers said there was \$1000 damage to the left side of Belk's trailer, \$750 damage to Kilpatrick's trailer and \$250 damage to the pickup truck.

Bronze Medallion Home Impresses Local Woman

Women have a particular viewpoint when it comes to looking at a modern home they have always visualized in their dreams. Many might consider costs, insurance, taxes, the husband and the children, but it is a woman who has to live in it most of the day and see the things differently than men.

Such a woman is an Illinois Power Co. employee, "Mrs. Bea Bright," who visited a "bronze medallion" home built by M. H. Wolfe Co. in Holiday Gardens. The home is used by the power company to display new lighting ideas.

A bronze medallion home differs from a gold medallion home in only one respect. The latter has electrical heating but both have an adequate wiring system with many independent circuits and outlets and several major electrical appliances.

She was impressed from the first time she saw the home with which turns on and off automatically as the sun comes up or goes down.

Halo Of Light

"The house, practically had a halo of light," Mrs. Bright said. "There was a light in front of the porch had a light on the ceiling and of course, as all good display houses do, it had flood lights in the front yard connected to the weather proof receptacles in the front of the house."

As we stepped into the living room we were immediately surrounded by soft light and sweet music. The beige living room had black modern furniture with touches of gold and orange and was lighted by a cove that provided indirect light to both the living and dining rooms.

"To the left of the living room was the dining room with an open stairway to the basement," she went on to say. "As we left this room and started down the hall, lighted by a triangular shaped white and brass

Sale of State Auto License Plates Lagging

The sale of 1960 Illinois auto licenses is running slightly behind the sale of plates at the same time last year, Secretary of State Charles F. Carpenter reported today at Springfield.

Last week, 3,862,000 applications for registration had been received and processed. This is about 47,000 less than at the same time last year. The secretary of state's office expects a registration this year of 3,825,000 motor vehicles.

In announcing the registration figures, Carpenter reminded Illinois motorists that only about three weeks remain before the Feb. 15 deadline for displaying the 1960 plates.

Motorists who plan to submit their applications by mail now have about a week left before mailing applications to insure having the plates by the display deadline, as about two weeks are required for the processing of applications and delivery of the plates.

State troopers plan to begin issuing arrest tickets to motorists failing to display 1960 plates Feb. 16. Receipts showing that the motorist has applied for licenses will not be recognized unless they are dated Feb. 1 or earlier.

Stallings PTA

A physical education demonstration was presented during a monthly Parent-Teacher Association meeting Thursday evening at Stallings grade school.

Rhythm events were presented by second grade pupils, led by the physical education teacher, Miss Sandra Judd.

President Emma Rellike was in charge of the meeting, and a prayer was read by Howard Rohrer.

It was voted that the boy scout institutional representative, cubmaster and den mothers attend a recognition dinner March 12 as guests of the PTA.

It was decided to purchase two choir robes for the Granite City Area Council Mothers singers' group, in which Stallings has four representatives. The banner for largest room attendance was won by Mrs. Mary Anderson's second grade class. The class will keep the banner until the next meeting.

The guest speaker, Waldo Sizemore, spoke on a program the area council will conduct on leadership training in March and April.

Refreshments were served by the first grade room mothers, led by Mrs. Ethel Gertman and Mrs. Joy Gertman. Approximately 50 attended.

Record Of Pioneer Business Firms Is One Of Devoted Service To Community

The 34 or more firms with 50-year records of service to the Quad-Cities and the more than 77 other businesses with 25-year histories are deserving of the recognition to be accorded them at a banquet here in May, sponsored by the Associated Retailers, Chamber of Commerce and East Side Manufacturers Association.

From the oldest, the 65-year-old Terminal Railroad Association and First Granite City Savings and Loan, to the newest local business firms, they have been closely linked with the development of this community from a small river settlement to an industrial and residential giant of ever-increasing stature.

Most of the businessmen have lived here for the quarter-century and half-century periods to be recognized, and their lives, efforts, citizenship and planning are an invaluable and inseparable part of the history of the Quad-Cities. Whether the occasion involved extending credit to families affected by the depression or serving on volunteer civic improvement committees, their record is one of generous, unceasing service.

Probably few people realized that there are at least 111 firms that have been in business here continuously for 25 years or more under the same name or family ownership. Assembling of the list has proven interesting and will afford the community an opportunity to express its thanks to the pioneer firms.

Ability To Speak Russian Will Help Americans Cope With Communist Menace

"The American relies upon personal interest to accomplish his ends, and gives free scope to the unguided exuberance and common sense of the citizen; the Russian centers all the authority of society in a single arm, yet each of them seems to be directed out by the will of heaven to sway the destinies of half the globe."

The date of DeTocqueville's prediction, 1835, indicates that some patterns of history have a degree of permanence despite the constantly-changing complexion of the world. While a reference to heaven is questionable in any current discussion of the atheistic ideology and dictatorship that controls Russia, the 125-year-old comment accurately describes global conditions at present and in the foreseeable future.

The shooting war in Korea between the causes of freedom and Communism has cooled into a semi-peaceful coexistence marked by spirited military, political and economic competition between the east and west. For good or evil, the governments based in Washington and Moscow represent, by far, the two most powerful forces in the world today. American strength is described as adequate to deter any enemy from "a rational decision to attack," but Russia also is strong and is likely to remain so.

To deal with a problem, it is first necessary to know and understand the problem, even if this involves overcoming a language barrier. With millions of Rus-

sians able to speak English, increased emphasis is being placed in this country on learning the Russian language.

A new study by the Harvard Center for International Affairs concludes that "to encourage evolution of the Soviet system and the Communist bloc, we should promote the most extensive contacts possible." Urging exchange of ideas and viewpoints in addition to formal exchanges involving teams and groupings, the Harvard experts say the United States "should strive to develop extensive contacts with intellectuals in the Communist orbit and eventually with politicians in the upper and medium levels in the hope of gradually affecting their ideological commitment."

With this background in mind, it is encouraging to know that the Madison school district will offer a high school course in beginning Russian language next fall. As more and more American high schools and colleges start teaching Russian, the nation and free world will become better equipped to meet and cope with the Communist menace.

We hope other school districts in the Quad-Cities will emulate Madison's enlightened view toward international affairs.

Grand Jury Report Calls For Closer Watch On County Taverns

Words of praise included by Madison county grand jurors in a special report last week reflect a contention expressed here on a number of occasions — the Quad-Cities are blessed with alert police departments that prepare robbery and other serious, painstaking work. Officers singled out by the grand jury for commendation were Police Chief Barney Fraundorf of Madison and Detective Chief James R. Lowder of Granite City.

The grand jury report also recommended sterner action than at present against taverns that are "repeated offenders" in serving liquor to minors and remaining open after the legal closing time. It is well for public officials to heed the views of grand jurors, for they are the voice of the people. Even those juries that shoulder their task so wholeheartedly as to be described as "runaway juries" are fulfilling an assignment given to them by the law.

In many parts of Madison county, including the nearby unincorporated area, enforcement of tavern laws often has been lax. As pointed out by the jury, a large portion of crimes committed by teenagers has occurred after they obtained liquor and beer.

Taverns are legitimate businesses but, like all other firms, they must be run by the existing laws. The grand jury's recommendation is a clear call for closer enforcement of the regulations by county authorities.

The other Friday noon we were driving north on Delmar avenue and it took us exactly four minutes and 10 seconds to travel a block from 19th street to 20th street. Wonder what it will be like 10 years from now, after the population and automobile "explosion"?

Granite City PRESS-RECORD Page 16 Mon., Jan. 25, 1950

Our Constitution, provoked the Poson Tea Party, and sparked the Revolution of 1776.

To eliminate this threat of constitutional regression, citizens from all East Side communities are developing collective strength by uniting under the SICL.

The SICL is a commendable example of our great democracy at work in its purest and most admirable form. Here are the limited citizens at grass roots level peacefully and resolutely banding together for a fight of mutual and legislative battle grounds against forces which for the sake of a "fast, easy buck" are compromising the constitutional rights of the victimized citizens.

These citizens realize that the battles ahead will not be easy. Yet they are preparing to march into battle with solemn dedication, inspired by the realization that none of our constitutional rights and privileges have been established and preserved without sacrifice, sweat, blood and tears.

These same citizens in time past no doubt have been criticized for lack of interest in civic affairs. And usually this criticism has come from newspaper editors, political leaders, and civic leaders. These men and women who have offered this criticism in the past now have an opportunity to promote civic interest, locally and nationally, by offering their support to the SICL.

To newspaper editors, political leaders, civic leaders, private citizens, labor leaders, industrial leaders, business men, professional men, and local, state, and congressional representatives, I would say this: Learn more about SICL and its well formed plans to prevent further erosion of our constitutional rights.

Once enlightened, I am sure you will decide to help further the laudable aim of the league in some substantial degree of moral, financial, and active support.

The league's mailing address is P. O. Box 432, Granite City, Illinois. SICL Member.

URGES GO CITIZENS TO SEEK GOOD GOVERNMENT Well known Mr. Walter Nann won his point in widening and surfacing his Cayuga street. I can't see how the people of the 5th Ward vote for a man that won't do the improvements that he has promised to do.

And the rest of the streets with out of curbs and sidewalks. It seems that Mr. Nann has what it takes to put it over on other Aldermen including The Mayor.

We have other Aldermen who don't care much where the money goes and for what. A thick back he voted not to buy anything out of Granite City. This is city supplies, regardless of the cost. He is not interested in saving taxpayer money. Also it seems he doesn't want our city labor crews to do small jobs.

Car Swerves To Avoid Child, Strikes Auto

Swerving to avoid a small girl who darted across the street, the southbound auto of Fred Novak, 1025 McCambridge avenue, struck the auto of Josephine Rodgers, 2043 Sixth street, at Third street and McCambridge, Madison, at 8:57 a.m. Friday.

Novak, whose car was damaged about the right front fender, grille and radiator, had been starting to make a right turn off McCambridge and veered to the left during the turn. The Rodgers car, damaged about the hood, radiator, grille and left front fender, was headed east, waiting for the Third street to cross McCambridge.

Nickel Plate Credit Union Election Tonight

Members of the Nickel Plate Credit Union, Federal Credit Union, will hold their annual meeting at the Tri-City American Legion Home, 24th street and Madison avenue, at 7 o'clock this evening. Rodgers, 2043 Sixth street, at Third street and McCambridge, Madison, at 8:57 a.m. Friday.

This meeting will climax another prosperous year for the Credit Union. Members will vote upon important policies, election of several directors and committeemen and approval of a proposed building it was announced by the president, Wilbert E. McCracken.

A 4% dividend has been declared by board of directors. The unit's membership increased from 1066 to 1288 last year and savings of the members totaled \$381,000.

Presbyterian Men To Elect Officers

Men of the First United Presbyterian Church will hold their first meeting of the year on Thursday evening at the church with Oscar Burdick, president of the Alton Presbyterian Men's Council, as a guest. He is from Edwardsville.

The meeting will start with a dinner at 6:30 p.m., and an election and installation of officers is scheduled. Richard West is president of the Granite City Men's Council. Reservations for the dinner may be made by telephone on the church.

Traffic Charge William Krante, 63, of Wood River, was arrested Sunday afternoon by Granite City police on a charge of failing to observe a stop sign at 23rd and Iowa streets. He posted his driver's license as bond.

Driver In Accident Pleads Not Guilty

Robert Loar, 34, of 2221 Eastwood avenue, who was charged with leaving the scene of an accident, pleaded not guilty Saturday morning before Police Magistrate Gasparovic and was released on \$750 property bond for a hearing Feb. 10.

Police said the accident in the 2000 block of Madison avenue involved autos driven by Loar, Pickett, 21, of 56 Lee Wright Homes, who was pulling off a super market lot to travel south on Madison avenue, and Loar, who was going north on Madison avenue.

Two Traffic Charges Charges of failing to observe a stop sign and traveling in the wrong direction on a one-way street were placed against Hubert L. Way, 30, St. Louis, who was arrested last night by Granite City police.

The FORUM

SICL FIGHTING TAXATION WITHOUT REPRESENTATION To the Editor For the Forum C.C. Press-Record Dear Sir:

ST. LOUIS, Jan. 20 — Ten ILLINOIS RESIDENTS were charged with failing to file and pay Missouri income taxes in information filed in the COURT OF CRIMINAL CORRECTION yesterday.

How is it that "neighborhood" news?

When laws such as the Missouri State Income Tax and the St. Louis City Earnings Tax are so unfair and unjust that victims, law abiding citizens protect to the point of breaking these laws, I say it is high time such were outlawed.

At present, there is nothing any one can do for the Illinois citizens who are arrested. Individually, they have no choice but to pay the "tax grab." I am sure it is obvious that such "tax grabbing" is designed to keep from raising the rates on other Missouri taxes. The same type of taxes, incidentally, that we pay at a much higher rate than Illinois in order for our state to be self-supporting.

As for the future, all Illinois residents have an opportunity to stop this tax raid on Illinois. This opportunity is available through an organization which is chartered by the State of Il-

linois, and it is incorporated as a civic, non-profit organization. As cited in the charter, its purpose is: "CIVIC, and in furtherance of same, the corporation shall promote equitable taxation and do away and all things necessary or appropriate therefor."

The name of this organization is the SOUTHERN ILLINOIS CITIZENS' LEAGUE, and it is dedicated to challenging the constitutionality of the Missouri taxes imposed on the income earned by Illinois residents who work "across the river."

This challenge will be accomplished through litigation, legislation, and any other honorable means. Illinois residents are expected to pay Missouri's direct taxes on hard earned wages without any representation whatsoever; that is, no right to vote or against representation without any representation to act in their behalf — in other words, TAXATION WITHOUT REPRESENTATION!!

As we all know, one of the specific grievances in the Declaration of Independence was that the king of England was taxing the colonists without their consent. This is the same principle involved in the inspirational and unforgettable battle cry of 1776, TAXATION WITHOUT REPRESENTATION!!

Without question, therefore, the Missouri side is compromising the spirit and principles which seeded the conception of

HEAVILY TRAVELED 18th STREET, its concrete pavement broken, flaking and full of holes apparently has been pigeonholed by the city while awaiting the outcome of a lawsuit against Illinois Terminal Railroad for removal of abandoned trolley tracks. Meanwhile, the street continues to deteriorate.

SPRUCE STREET in Lincoln Place presents a problem to residents because of mud. It is linking roadway between Niedringhaus avenue and West 20th street.

CHUCKHOLES confine Faith avenue to virtually one traffic lane at several points in the Community Heights area. Faith avenue serves as a connecting roadway for the large Marshall school subdivision to Nameoki road.

JOHNSON ROAD, used daily by an estimated 8000 motorists, has been maintained, but because of constant use develops chuckholes rapidly. Paving of the roadway, on which the city's largest grade school and several churches are located, has been urged for years by several aldermen.

Priority Plan Lacking For Granite City Motor Fuel Tax Street Improvements

Granite City, with \$350,000 motor fuel tax funds in its pocket, is a city without a definite program for street improvements.

The result has been a hodge-podge race in the city council for special projects, without regard to priority or need. The alderman who can muster sufficient support gets the work done in his ward.

Mayor Davis points out the motor fuel tax projects in the process of being carried out are a part of five-year plans, once required by the state highway department, or the proposed multi-million dollar street bond issue program defeated in 1958.

However, he also said he is aware of the need for a new priority-type program. The five-year priority listing was established for municipalities in the early 1950s, but was abandoned by the state several years ago.

Few MFT Projects

Granite City abandoned its plan with the paving of St. Clair avenue. Since then motor fuel tax fund projects have been few as the city worked to build up a motor fuel tax reserve for the 1958 bond issue election.

Projects now in the hopper are a two-block paving job on Myrtle

avenue, two-block projects for Jerden and Sheridan avenues, a maintenance with motor fuel tax funds, a street must be designated as an arterial thoroughfare by the city and approved by the state.

Arterial Requirements

The state permits a city to set up a network of arterial streets, other than state routes, to provide for a smooth flow of traffic and serve public buildings, parks, cemeteries and all other similar centers of public nature where there is a concentration of traffic.

However, the state no longer requires any priority listing based on urgency or need. A state highway official said it is assumed that municipalities will use motor fuel tax funds where there is the greatest traffic congestion.

In approving a street for arterial designation, the state determines if the street is used by public vehicles and by motorists going to and from work.

It has been estimated the city of Granite City has approximately 30% of its streets designated as arterial. When a municipality reaches the point where 80% of its streets are arterial, it may add another 10% with state approval.

Mrs. Ruth Riddle, 2025 Sixth street, was released from St. Elizabeth Hospital Saturday. She will spend a few days with her sister, Mrs. Lila Scott of Warren avenue.

RESIDENTIAL IDAHO STREET in the Heintzville area has a smooth crown, but motorists find the shoulder soft as evidenced by the deep rut at the parked car in the foreground. The auto on the right in the background is parked nearly in the middle of the street.
